Digital School, Prizren

To whom it may concern,

I would be more than happy to recommend Denis Hoti. I had the pleasure of teaching Denis Hoti for 5 years here at Digital School. I'm always impressed by his ability to lead and mentor his peers. He exemplifies humility and maturity in the classroom and during extracurricular activities. I therefore highly recommend Denis Hoti at applying position.

I have known Denis Hoti for 5 years as I worked in the capacity of a teacher at Digital School. I took Denis Hoti through Front and Back-end courses, where he excelled with superior projects and outcomes. I'd rate his performance as outstanding based on his projects, class participation, and attendance. To add to his highly completed resume, I'd like to mention some of his achievements: He won KosICT, won November Code Fest, and also successfully represented Digital School at Western Balkan Digital Summit. Denis also gained valuable experience as an intern at Starlabs.

I know that Denis Hoti will gain the needed knowledge and skills to become an excellent programmer by being a student in our esteemed institution. I would like to restate my strong recommendation for Denis Hoti and sincerely hope he will be accepted. I highly recommend him without reservation.

With that said, I am highly confident in my recommendation and believe that Denis Hoti would be a great fit for the position.

Please email me at [arianittershnjaku@gmail.com](mailto:arianittershnjaku@gmail.com) if you would like to discuss my experience working with Denis Hoti in more detail.

Sincerely,

Arianit Tershnjaku

Digital School Prizren L.L.C.
